Personal Investment Management Services

With an average of over 20 years of investment management experience, our relationship-based portfolio managers will work closely with you to design a customized investment strategy tailored to your specific goals.

Investment Management Strategy

Our flexibility allows us to offer customized solutions that can adapt as your financial situation develops over time. Our team is committed to providing you competitive investment returns and are long-term investors who believe that a diversified portfolio is the best way to manage risk and protect your legacy.

Investment Philosophy

We customize each of our portfolios to ensure that the risk & return profile, as well as liquidity needs, meet your specific needs and are in line with governing documents. Our open architecture allows full access to best-in-class investments opportunities. And, as fiduciaries, we are held to the highest possible legal standard when it comes to making investment decisions on your behalf.

Personalized Investment Process

Understanding Your Goals

Our strategy begins with an in-depth review of your current financial situation, which includes income needs, risk tolerance, tax situation and performance expectations. This information-gathering process provides the foundation upon which your investment program is built.

Customizing Asset Allocation

Our investment policy statement is the tool we utilize to document our client strategy, return objectives and constraints. This statement serves as our guide in the construction and monitoring of your portfolio and ensures the portfolio stays in sync with your expectations.

Portfolio Construction

Once the strategy is set, we begin the portfolio construction process. We recognize that not all investors are created equally. As such, we offer our customers a wide array of diversified portfolios customized to ensure it fits your specific risk and return profile as outlined in the investment policy statement.

Measuring Performance

Finally, we monitor the performance of the portfolio to ensure it behaves as outlined in the investment policy statement and keep you informed of your progress through a customized communication plan.

To put your financial strategy into action, contact one of our investment and portfolio management team members today.
